Description: Set against the stunning backdrop of San Diego Bay, the tenth annual Coronado Speed Festival will feature 225 of the world's most unique and pedigreed machines at one of the most distinctive stages, Naval Air Station North Island, the birthplace of Naval Aviation. A spectator-friendly 1.7 mile course is constructed in a matter of days on the runways and taxiways of Naval Air Station North Island.

The vintage racecars are chosen to compete on the basis of their historical significance and certified authenticity. Some of the cars on the track are valued in the millions of dollars and, unlike most racing events, fans are invited to tour the pits and speak with the drivers of these unique machines. An enthusiastic gathering of 20,000 fans is expected to be on hand to take a step back in time to enjoy auto racing's rich history.

SOCALM Library

Some of the members may not be aware that SOCALM has a library. There are several reference items available to members for their use. We have factory repair manuals for model years 1990, 91, and 92. An enthusiast manual for the early (1600cc) cars, along with suggested repair times manuals for 1995 cars.

If you are thinking of planning a run, but are a little reluctant because you've never done it before, there is an excellent manual available to walk you through the process. Back issues of Miata Magazine to Winter of 1992 are available.

We have a full set of past issues of *The Reward*, thanks to Bill Strohm who donated his collection.

There are also some items that may be helpful, such as 2 portable CB radios for use on runs. A G-Tech meter for measuring acceleration, horsepower and cornering G's. A trunk-mounted luggage rack is available to use on a long trip.

These items are here for the use of any SOCALM member in good standing. Just contact club librarian Bill Bryant at (909) 595-1974 or librarian@socalm.org to make arrangements.

All Things Miata

by Bob Davis

Every day, thousands of people purchase vehicles.....for business, for pleasure, for work, for hauling, for speed, for just about any reason that you can imagine. I never thought 16 years ago this month that our inclination to purchase the then relatively new Miata roadster would be far more than just another car for Juli and something for us to use for a few casual weekend trips. That purchase literally changed our lives and certainly "for the better."

We have made so many friends via the Miata that it has become our life. I'm writing this just a few days after our return from visiting John & Gerry Conn, past Socalm members who now live in the Seattle area. While there, I received a call from Greg Thomas, another past Socalm member. He's starting a new business and I'm his CFO while I continue my full-time job in Downey. A few minutes later, I received a call from Jeff Ridenour. Jeff joined Socalm at the same holiday party that we did in early December, 1991. He was hoping to meet me for lunch but, of course, he would have had to drive "really fast" to have made it to Poulsbo, WA in 30 minutes. Last fall, Jeff and his wife, Karen, traveled with Juli and me to Yellowstone and then on to a Miata gathering in Washington state, where we met up with Lee & Pat Ruecker and Tom & Marilyn Holcomb.

And, of course, there have been our numerous vacations with Bill & Do-reen Bryant to Yellowstone, Mt. Rushmore, Telluride & Silverton, Cedar Breaks Nat'l Monument, PCH to its northern limit, Las Vegas, Laughlin, Sedona, Colonial Williamsburg, Washington, DC, New York, Karchner Caverns, Dublin, Glasgow, etc. Combine these with our frequent drives to Mt Baldy with Bud & Lisa, Mike & Martine, Ted & Paulette, Gary & Donna, Tom

"...Juli & I love all of the friends that we have made as a result of the purchase of our first Miata"

& Marna, Richard & Rose, etc., etc., etc., etc., etc., etc., etc., etc., and all of the other fun runs and socials held during the past 16 years and Juli and I know that we are very, very lucky to have made so many friends and been able to drive so many miles.

Literally, all things Miata have consumed our lives...even to the extent that when our son asked us to baby-sit Xander on a Saturday in October, I made him wait until I checked the Socalm calendar (yes, we'll be watching Xander, but luckily, it didn't conflict with a Miata drive). On occasion, OTM acquaintances have said to us "You need to get a life!" Our response is "We have found a life and it's been great!" Our Miata life has experienced births, marriages, divorces, retirements, and deaths, and we have been privileged to share these moments with our friends.

If I didn't mention your name, please forgive me as I'm writing this at work and I need to actually do a little work today and must end this. But never doubt that Juli & I love all of the friends that we have made as a result of the purchase of our first Miata.....it's just not possible to mention everyone without listing well over half of the Socalm membership roster as well as numerous members of other clubs.

So, I wish you the same fortune....may you find many life-long friends and much happiness as members of one of the best clubs anywhere...Socalm.

E-Mail

by Tom Wood

Our club has a means of communicating with our members called "E-Mail" Yes this revolutionary computer by-product to let our members know of Runs and Events, Socials, and things of importance like Holiday parties.

The board uses this means as communicating with prospective new members to the club as to what the club has to offer, what we do as a family of Miata owners and any other information they may be looking for.

We get emails wanting information on where to get things done or where to purchase items for their cars. We respond and help even if the person is not a member of the club yet.

We have members who do a bit of rambling and kidding such as "being used as a slalom cone on the freeway", " Are you going to bring good weather for this weekends run?", Or the best, "Put the screaming kids in the SUV's and roll up the windows!"

So we must read the emails, figure what events you will be going on, thanks for giving you the information you need on your car, and who is helpful and who is not.

You all get spam at some time or another, Miata's for \$1400.00 and garaged with only 23,000 Miles so I'll consider the topics and just delete.

Remember the important thing, join in on the Miata events you may be surprised and have a real friend you did not know you had.

So let's get out there and E-mail an event to the club or let them know you want to go. Use the E-Mail as it was intended for, to make friends, and find something to do with our cars.
